New piazzas and a beautiful fountain.

All of our squares are being beautifully renovated; the Main Piazza will be enriched with a new, wonderful and bigger fountain.

A bridge to the future.

Serravalle will grow from Piazza Ponente; a new road and a new square are being built and will lead to the bridge. From there, our guests will be able to access the future Serravalle.

50 new stores opening.

Over the bridge, you will discover new shops, restaurants, streets and squares, which will make your shopping here with us even more unmissable. More than 1,000 additional parking will also be available to our visitors thanks to a convenient multistorey car park.
